Collection**

To help you choose, please use our quick price guide.

Profile kitchens Pages 4 to 15

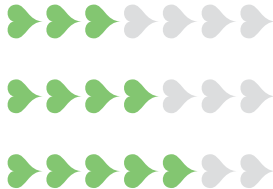

"If you are looking for the perfect modern kitchen with a truly handleless look and still want to pay the perfect price then these are the kitchens for you."

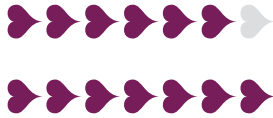

Shaker, Slab & Handleless Kitchens Pages 18 to 73

"If you have just bought your first home, or your first child is on the way, then great value is what you'll be looking for. These kitchens fit the bill beautifully"

"If you had a little bit more to spend and you were looking for those little touches that make a big difference then these kitchens are the ones for you"

"Now if you really want to splash out, but still want the best for less, then here's where you should be looking"

We specialise in quality kitchens for less. Our kitchens are easy to like, easy to buy and easy to fit and once you have one we know you will love it!

We also give you the 'look' you're after, from highly contemporary high gloss to classically stylish painted shaker designs and every kitchen we make comes with a reassuring 5 year cabinet no quibble guarantee.

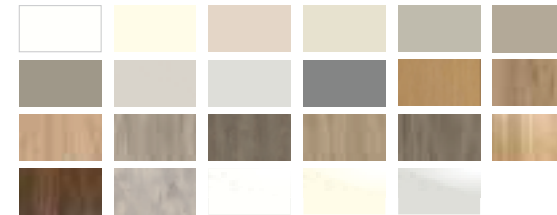

There are many reasons to choose one of our kitchens.

Our kitchens are simple to buy and easy to fit. Take a closer look and you'll find many more reasons to choose a kitchen from us over any other.

...here are just eight of them.

23 cabinet finishes

We have 23 cabinet finishes that match the majority of frontals. They look as good on the inside as they do on the outside, which is the sign of a quality manufacturer and they minimise costly finishing panels.

Glue and dowel construction

A rigid cabinet is a must in a top quality kitchen. Our cabinets are made using glue and dowel construction and each one is made to order meaning only the holes that are required are drilled.

Internal Accessories

We use the highest quality internal accessories from Kesseböhmer. These include a Cantilever Carousel, a Magic Corner, Pull-Out Base and a Larder Units.

Blum Hinges & Drawer Runners

All cabinets have Blum® hinges and drawer runners which have built in soft close, this means no more slamming doors. Blumotion ensures soft and silent closing on all kitchen door and drawers everytime.

Range of lighting

We offer a wide range of lighting from mood, task and convenience to add that finishing touch to your kitchen.

19mm cabinet

Our cabinets are made from 19mm high density MFC panels and are edged using a robust thermoplast ABS edging.

Unit availability

We offer one of the widest range of unit widths in the market, ensuring maximum storage utilisation and therefore avoiding the need for unnecessary filler panels.

High quality drawers

We use Blum® 500 deep drawers complete with steel backs, Blumotion soft closing and full extension runners. Our standard drawers can hold up to 30kg which equates to 30 bags of sugar.

Midway storage solutions

Wall mountable midway storage elements that are neatly fitted to the wall or splashback. The basic element for this system is a wall hanging rail. The storage elements are easily attached to the rail and are simple to slot in and slide to wherever they are needed.

Universal Hanging Rail
This hanging rail is simple to fix to the wall anywhere in the kitchen to provide the extra space for your kitchen accessories.

Knife Block
A safe place to store kitchen knives which are accessible.

Hook Rail
Great for hanging kitchen utensils.

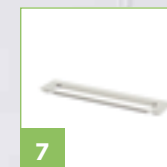

Kitchen Roll Holder
An accessible place to store and dispense kitchen roll.

Top Mounted Shelf
Ideal storage for commonly used ingredients and small items.

Multi-Purpose Shelf
Practical storage for cooking oil, ingredients and bottles.

Top Mounted Towel Rail
An easily accessible place to store your kitchen towel.

Foil Roll Holder
The perfect accessory for any kitchen, making it much easier to access the foil and film.

Dish/Herb Pot
A great kitchen accessory ideal for herbs and spices.

Everything in it's perfect place.
Everything within reach. **Easy to use and enjoy.**

CLEVER STORAGE

Sometimes the simplest things are the most extraordinary.

Just as nature exhibits amazing efficiency among its elements, Kesseböhmer strives to achieve the perfect balance between form and function. And after 55 years, you can rest assured, they've figured it out. With clever storage that considers convenience for today's multi-use kitchens as much as it considers capacity. The elegance and functionality of the Cantilever Corner, Kesseböhmer turns ordinary cabinets into extraordinary kitchens. Truly innovative designs with non-slip surfaces, transparent storage and smooth handling that deliver a level of simplicity that is naturally easy to use and enjoy.

With Kesseböhmer - the worlds leading premium storage brand, our Kitchens include great design ideas not just on the outside but on the inside too.

Kesseböhmer storage solutions provide stylish, practical and functional solutions providing better organised and easier access to storage space. In addition to brilliant functionality, Kesseböhmer storage solutions stand for exclusive design and a high quality finish. Internal cabinet space is used more efficiently than conventional systems, helping you get the most out of your kitchen.

Cantilever Corner

Combines optimal space utilisation with a clear overview and ease of use. You can store a lot of pots and pans - and each one is always in easy reach.

Pull-Out Corner

Pull once gently and both the front pull-out and the rear one move forward into easy reach - all in one noiseless, flowing movement.

3/4 Carousel Corner

Quality Carousel Corner trays are offered in a contemporary silver grey finish with solid bases that provide for a stable non-slip storage solution. They are available in both 1/2 and 3/4 size revolving units.

1/2 Carousel Corner

TALL LARDER UNIT

Although we can easily go out and fetch supplies practically whenever we like by popping to the nearest supermarket or even a petrol station (at night time or late on Sundays), every household still keeps a stock of foods. Pasta, sugar, flour, rice, salt, cocoa, jam, tinned food, sauces, ketchup ... are just a few examples.

Even this short list is enough to explain why it is that most people end up significantly underestimating the quantity and value of their own stored foods. One of the main reasons for this is that many kitchens do not have a specific, central place for stored foods. Instead, people nearly always store food in a wide range of cupboards. And that is anything other than ideal. You lose track of everything, you waste time searching for things and many foods are simply overlooked or forgotten. This leads to unnecessary duplicate purchases and is exactly the opposite of what you want. Now, at last, there is a solution with our tall Larder Unit!

150 PULL OUT

Good ideas fit in anywhere. Kesseböhmer creates much more than a tiny filler. When placed by the oven, the 150mm Pull-Out is the convenient solution for spices, baking trays or an indispensable towel. The high quality fitting lends even the smallest kitchen cabinets that special touch of elegance.

THE iMOVE

The intelligent pull-down system for wall units.

This pull down wall unit shelf system enables access to those difficult to reach areas. With an easy to operate pull down system which locks into an open position and then closes easily with one effortless movement. Transforming the classic wall unit in to an effective way of storing those everyday kitchen items.

Recycling Waste Bins

We have a selection of bins available to solve your recycling problems.

Our range of solutions makes recycling quicker and easier and what's more all of our bins are cleverly integrated within the kitchen!

Pull out waste bins with recycling compartments available in 300, 400, 450, 500 & 600mm wide

Pull-Out Waste Bin

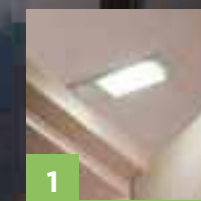

Swing Out Waste Bin

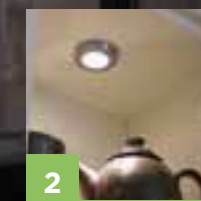

Lighting solutions for your kitchen

Getting the lighting right in your kitchen is critical, it's the room that attracts the most use both day and night, so creating the mood that you desire can be done with careful planning. Please consider the choice of lighting styles shown on the right.

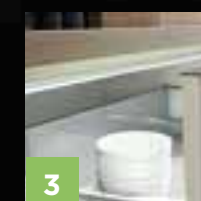

Over Cabinet

These lights are fantastic for pointing light down onto units, illuminating preparation and food areas, whilst also enhancing the ambience of the kitchen.

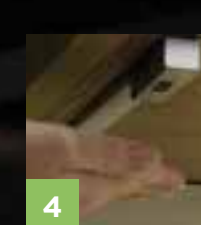

In Cabinet

Putting lighting in cabinets is practical when searching for stored items and decorative when you have feature glass units.

Drawer

With an automatic switch when the pan drawer is open, this lighting solution makes it easier to find what you need and looks good at the same time.

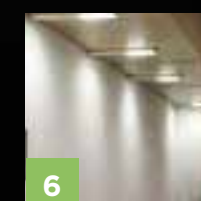

Touch Switching

A convenient and attractive touch sensor switch with easy on and off control.

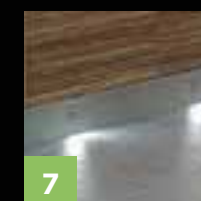

Pop-up Power

This allows the user to plug in any appliance and charge any USB powered devices within the convenience of the kitchen.

Under Cabinet

Using lighting under any wall cabinet brightens up any work surface, making it easier to prepare food.

Plinth

Plinth lighting is excellent for creating mood and ambience within the kitchen, which is especially attractive if you dine in the kitchen.

Co-ordinated Worktops

Our UrbanTop range will create a truly continental look and feel with matching cabinets and panels to give a co-ordinated look in your kitchen.

UrbanTop 38mm laminate worktops are an alternative to natural or solid surface worktops, practical and authentic these worktops are available in a variety of colours and finishes to suit every taste, please turn to page 69 to view all our finishes.

7

1 Matching Cabinets

A selection of our worktop finishes are available in cabinet colours allowing you to create a seamless co-ordinated look.

3 End Panels

These panels are used to create a 'goal post' effect by encasing the units to provide a truly contemporary kitchen.

5 Upstands

A cost effective alternative to tiling. You can mix and match to create the perfect combination of colour and material in your kitchen.

6 Backsplash

A contemporary alternative to tiling, a feature wall can be designed to create a seamless look - which is easier to maintain with minimal hassle and up keep required.

2 Butchers Block Edging

Butchers block adds the perfect finish to woodgrain worktops that creates an authentic impression of a solid piece of timber.

4 Framing

End panels can be used to encase units, this creates a uniformed and contemporary style for any modern kitchen.

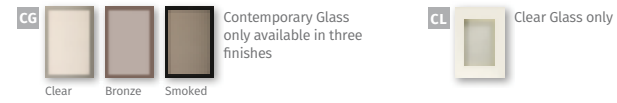

7 Cut & edged

Worktops and panels can be cut and edged to create breakfast bars and provide a practical element to a kitchen.

1. Select your door finish

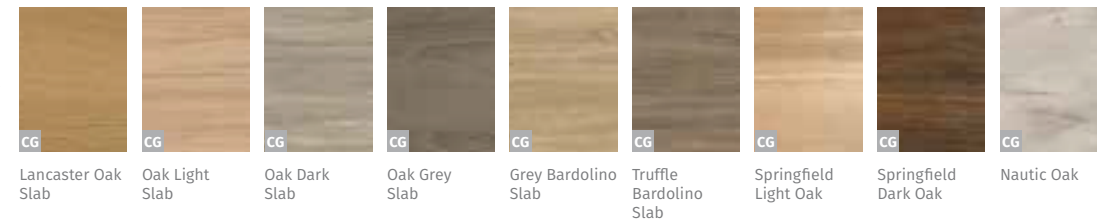

Choosing your door style and finish is important. Colour match to your desired kitchen finish or choose a contrast to suit your personality.

2. Choose your cabinet finish

Choose from a selection of 23 cabinet finishes to co-ordinate with your chosen door finish or alternatively choose your own look by using a contrasting colour. They look as good on the inside as they do on the outside.

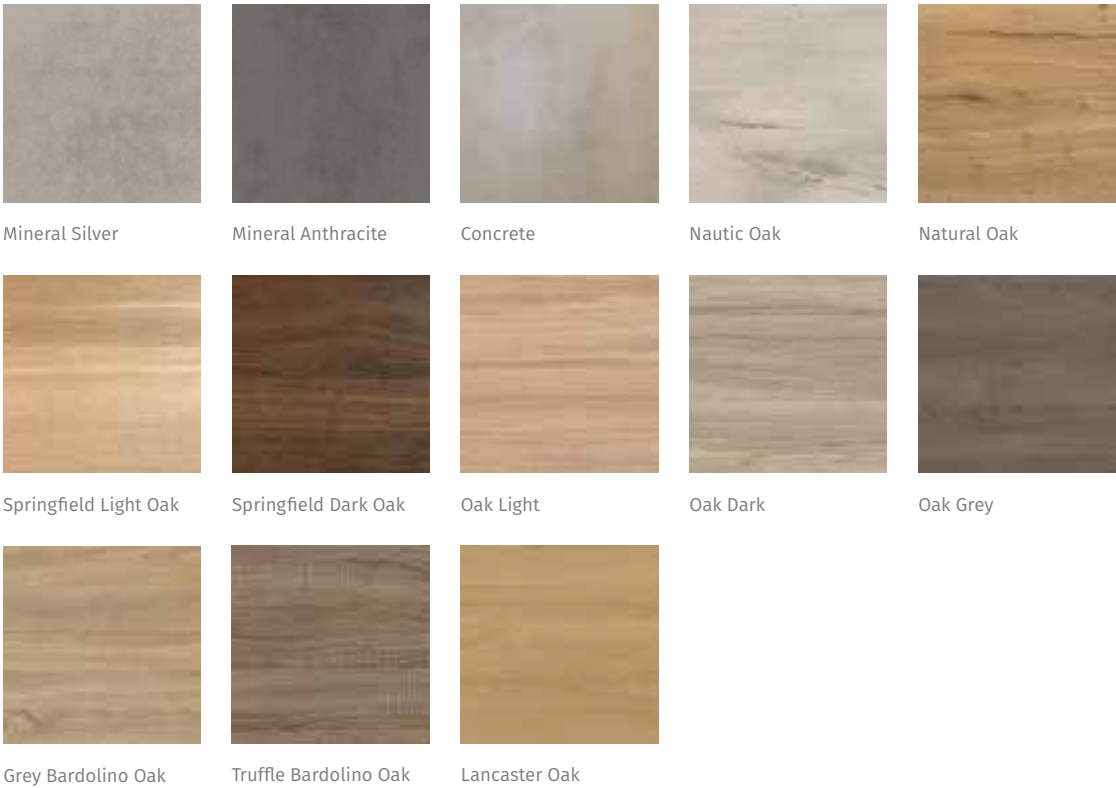

Cabinet grain always runs vertically.
Plinth grain always runs horizontally.

3. Choose your worktop finish

UrbanTop laminate worktops provide the essential combination of functional performance and creative flexibility to ensure your kitchen will look it's best.

A fantastic alternative to natural worktops and solid surface, great looking and a hard wearing option that won't let your kitchen design down in any way. They are stain, heat and impact resistant and available in a variety of colours and finishes to suit every taste.

Worktop finishes

Worktop Specifications

Number of finishes	13
Thickness	38mm
Widths	1500 & 3000mm
Standard Depths	600 & 640mm
Breakfast Bar Depths	940 & 1200mm
Edging Thickness	1.5mm Edged all round
Edging Finish Width	Linear Grain
Edging Finish Depth	Butchers Block End Grain
Worktop Finish	Top face only

Co-ordinated Worktops

Our worktop range has been carefully selected to co-ordinate with 10 of our 23 cabinet finishes. It is now possible to choose the same finish for both worktop and cabinets, producing a blended and co-ordinated design. Match your choice with a contrasting cabinet front to produce an on-trend 'continental' look.

5 Year Guarantee

We're so confident that you won't be disappointed with the quality of our worktops that they come with a 5 year guarantee!

Essential Planning Information

Planning Your Space

The kitchen is the heart of every home, now used for so much more than just cooking. When you are ready to begin planning look carefully at the available space. What shape is the room and how can you get the most out of it, taking into account all the requirements of your busy lifestyle.

Layout Considerations

Consider how you use your kitchen and what you like about it.

Think about what you would change from increasing storage space to ensuring you have enough preparation area. Make a list of the things you'd like to keep and what you'd like to change. This will be useful when planning your space.

Working Zones

Most kitchens work best divided into work zones covering storage (fridge/freezer/larder), washing (sink/dishwasher) and cooking (oven/hob).

The relationship between these three zones are often referred to as 'the working triangle' and if positioned correctly will ensure a practical and efficient layout making the kitchen a joy to use.

Measuring your space

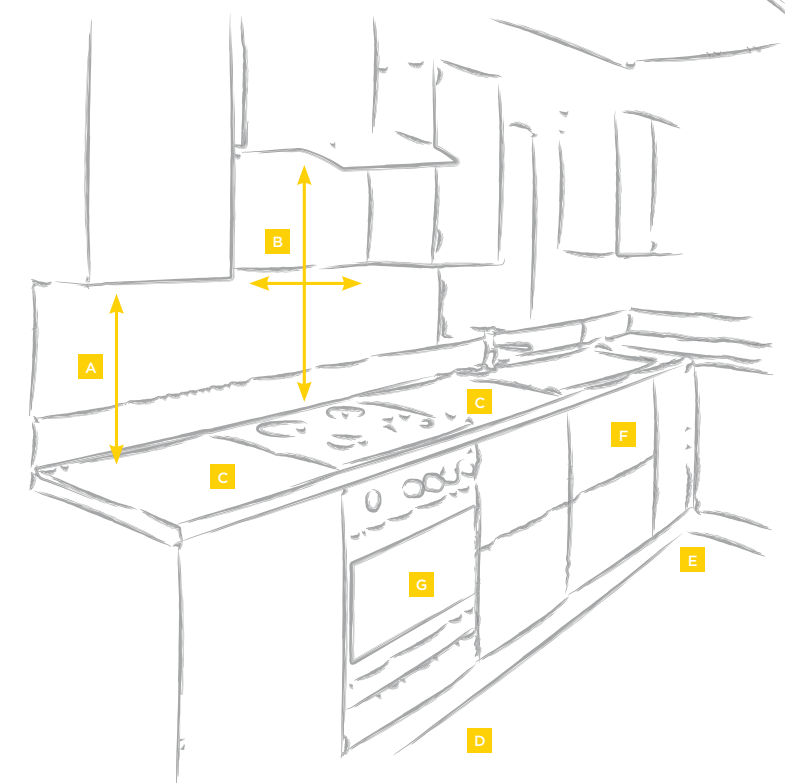

Successful kitchen planning starts with accurate and precise measurements. Careful preparation at this stage will ensure a smooth process leading to a kitchen that will fit perfectly.

- 1 Start by measuring the overall length of all walls and the height from floor to ceiling and record these in millimetres on your plan.
- 2 Measure each window and door by detailing the floor to sill, the height and width and the distance from the ceiling and room corners remembering to include the frame.
- 3 Check for obstructions such as radiators, meters, extractors or ventilation grilles and detail these on the plan.
- 4 Note the position of any stop taps, water and gas pipes and outside drain that the waste pipe runs into.
- 5 Finally mark any existing power points and light switches on your plan.

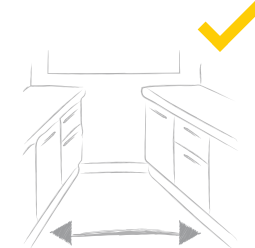

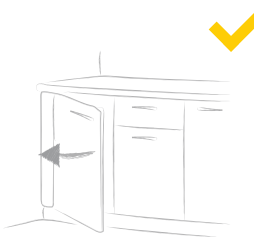

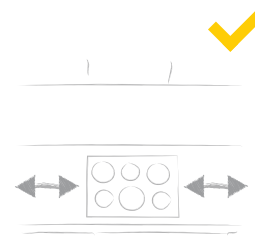

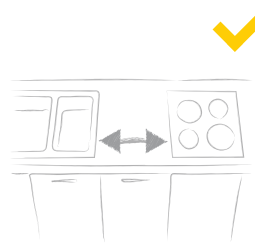

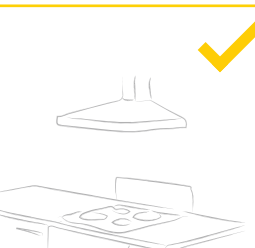

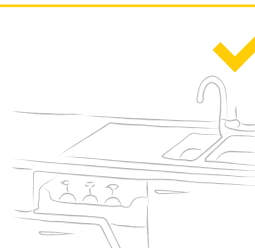

Further tips

- A Splashback height
- B Hob clearances
- C Preparation spaces
- D Oven ventilation
- E Corner planning
- F Drawer options
- G Appliances

Design points to consider

 Allow sufficient space to pass comfortably between units remembering to allow for doors and drawers to open fully.	 Small fillers should be planned between all walls and units allowing for uneven walls and clearance for door opening.	 Think about providing space to place hot pans onto a pan stand close to the hob.	 Plan sufficient worktop space for preparation especially in the hob and sink area.
 Place on an outside wall if possible and ensure manufacturers recommended extractor / hob clearances are maintained.	 Consider the appliances you have and any additional ones you would like to include.	 Think about drawer and pan drawer storage requirements and their location for ease of access.	 Dishwashers should be as close to the sink as possible for ease of use and plumbing.
 If possible avoid placing drawer units in corner situations.	 It is not recommended to plan ovens adjacent to walls.	 It is not recommended to plan sinks adjacent to walls.	 It is not recommended to plan ovens in corner situations.

Finishing touches

Once you are happy with the overall layout consider including some additional design features such as glazed wall units or lighting to complete your kitchen.

Collect ideas for colour schemes from magazines and the internet. Make a lifestyle board to compare colours and finishes for walls, flooring and fabrics. This will help with your design.

Cabinet features

- ▶ Traditional Glue and dowel construction supplied fully assembled.
- ▶ Rigid 19mm MFC Cabinets in 22 colour options with 8mm matching backs.
- ▶ Handed cabinet units without unsightly drillings.
- ▶ Cross rail top support on all base units.
